# Petit Spare Parts

Your reliable specialist in making-up, texturing and twisting

Petit Spare Parts specializes in the trade of accessories for textile machines of all brands

# Content

Based in Aubenas, France, Petit Spare Parts (PSP) was acquired by Rieter in 2024. The company specializes in the trade of accessories for textile machines of all brands manufactured by ICBT, ARCT, RIETER-ICBT and VERDOL. PSP meets any request at national or international level. The company has many years of experience in making-up, texturing and twisting as well as in-depth knowledge of the export business.

PSP also manufactures and repairs spindles, spare parts for textile machines, as well as special parts. In addition, the company also offers an enhanced mechanical repair station for all Rieter spinning and winding machines at its facility in Aubenas.

PSP manufactures special parts according to customers' drawings, individually or in series. The company offers a wide range of thread-guides in aluminum oxide, zirconium dioxide or tungsten carbide, among others.

This catalog entitles roughly 300 key parts for various machines in the area of texturizing, fine count, carpet, technical and glass yarn.
